Dear Hiring Team,

I am writing to express my interest in the Product Manager position at N26. With over 4 years of experience in digital product management, including a background in fintech and consumer technology, I am excited about the opportunity to contribute to shaping digital products for millions of users at Europe's first mobile bank.

In my current role as a Lecturer at a prestigious university in Germany, I have honed my skills in owning product roadmaps, collaborating with cross-functional teams, and driving product launches based on user feedback. I am well-versed in Agile methodologies and have a strong knack for data analysis and communication. Furthermore, my experience in quality assurance and research positions has equipped me with the necessary attention to detail and problem-solving skills required for success in product management.

I recently completed a Master of Science in Management from the Generic School of Business in the UK, where I developed a keen understanding of business strategy and innovation. Additionally, my certification as a Project Management Professional (PMP) and AWS Certified Solutions Architect demonstrate my commitment to continuous learning and professional growth.

I am thrilled about the opportunity to contribute to the innovative work at N26 and look forward to the possibility of discussing how my skills and experience align with your team's goals. Thank you for considering my application.

Sincerely,
Andrea Jones
